PRESCHOOL WORKSHOP TOPICS

World of Worms This workshop will provide preschoolers with an opportunity to get their hands dirty while learning all about worms.

Listen Closely

This workshop will introduce students to the science behind the sounds all around them.

Keep in Touch

Children will learn how they understand the world with their sense of touch, and we will also emphasize that some objects are safe to touch while others are not.

Eye to Eye

This workshop will introduce students to their sense of sight.

Adventures in Air

Preschoolers will learn that even though air is invisible, and has the power to both move items and to slow them down.

Digging for Dinosaurs

Dinosaurs are always a huge hit with children, especially preschoolers.

Water Works

Children will learn all about the different properties of water. They will experiment with floating, sinking, absorption and so much more.

Science of Music

Children will feel, hear and see the vibrations that help create music in this hands-on exploration.

Magnetic Attraction

Experience the poles and power of magnets in this hands-on workshop.

Space Frontiers

Take your class on a trip through the solar system where they will learn all about the elements of space.

Butterflies

This hands-on look at butterflies provides preschoolers with an opportunity to find out how caterpillars change into butterflies, how butterflies eat and to even make their own butterfly model to take home.

Light's On

Interactive and hands-on activities will assist preschoolers with this introduction to light.

Let's Measure

Preschoolers will learn all about measurement during this hands-on program that will explore mass and length.

Fluttering Birds

This hands-on look at birds provides preschoolers with an opportunity to discover the wonderful world of birds.

Mad Mixtures

Interactive and hands-on activities will assist preschoolers with this introduction to mixtures and the science of chemistry.

Sea, Sand and Surf

Preschoolers will learn all about the science behind things in the ocean in this hands-on look at the sea, sand and surf.

Color Lab

Introduce preschoolers to the exciting world of color and our ROY G. BIV puppet!

In The Garden

During this set of lessons, your child will learn all about how gardens grow and the interesting things that live in gardens.

Classes include: **Soil and Seeds/Sun, Wind and Rain/Plants and Leaves/Flowers, Fruits and Veggies/Butterflies, Bees, and Ladybugs.**

Workshops for groups of 15 children start at \$95. Discounts may apply for multiple visits and/or multiple presentations. A modest travel fee may apply. Prices are subject to change.
