Costs of Camps*

CAMP	ALL WEEKS EXCEPT JULY 2 - 6	WEEK OF JULY 2 - 6 (4 day camp)
Kid's Lab	\$150.00	\$120.00
Junior Engineers	\$150.00	\$120.00
Robots 2012	\$175.00	\$145.00

*NOTE: The Orchard, Sycamore, and St. Richard's Episcopal Schools all charge an additional registration fee. Please contact them directly to register.

Mail this form and check or card information to:

Mad Science of North Central Indiana,
6204 La Pas Trail, Indianapolis, IN 46268

Please register your children at least 3 weeks prior to the start of a camp. Credit cards and checks will not be processed until two weeks prior to the start of camp. -- so why wait! **Reserve your child's spot in camp now.** If you are signing up for more than one camp, payment will be processed before the start of the first camp. Ask us about special discounts for multiple children and multiple camps (not available at all locations).

Camp registration fees (minus a \$50 processing fee) may be refunded up to two weeks prior to the first day of camp. Refunds will not be issued for cancellations with less than two weeks notice.

Please see other side for camp dates, locations, and descriptions

CAMP LOCATIONS:

Zionsville: Zionsville Presbyterian Church (116th and Michigan Rd)
4775 West 116th Street, Zionsville, IN 46077

Fishers: Fishers United Methodist Church - (Near I-69 and 116th Street)
9690 E. 116th Street, Fishers, IN 46037

The Orchard School: 615 West 64th Street, Indianapolis, IN 46260

Servants of Christ Lutheran Church: 7650 Oaklondon Rd., Indianapolis, IN 46236

Brownsburg Public Library: 450 S. Jefferson St. Brownsburg, IN 46112

St. Richard's Episcopal School: 33 East 33rd St., Indianapolis, IN 46205

The Sycamore School: 1750 W. 64th Street, Indianapolis, IN 46260

Kids' Lab -Ideal for budding young mad scientists who want to explore in a **FUN**, hands-on way. Campers will explore the science behind machines, create chemical reactions, discover what football players, ballet dancers, and scientists have in common, investigate the animal world, and learn how to bend light. This unique combination of topics will capture the fascination of young science adventurers! Appropriate for ages 5 to 7.

Jr. Engineers - A super science camp for junior scientists who want to have a bunch of **FUN** while immersing themselves in a different science topic each day. Campers will explore the chemical nature of things; build, design, and test structures; learn the mechanics of simple machines and use these simple machines to build more complex devices; build and test flying planes and learn about rockets; and learn basics of electric circuits and motors. Appropriate for ages 7-11.

Robots 2012 - Campers in the Mad Science Robot camp will build the **OWI ATR** robot. This **FUN** robot can be assembled in one of three configurations: the **Gripper**, the **Forklift**, and the **Rover** (see picture). Campers will begin the week with a box of parts and each camper will depart on Friday with a working robot. During the week, campers will learn concepts correlated to robotics. Campers must be at least eight years old and must have completed second grade when camp begins.

Please see other side for registration and price information.
