Dear Claudio and Shauna:

We'd like to thank you for your engaging presentation of science concepts to our young patrons. Judging by the looks on their faces, the children were fascinated by the awesome "experiments." Many parents also expressed their delight in the program as they were leaving.

Since we hadn't taken registration prior to the program, we did not know what age children would be attending. Shauna did a wonderful job in her explanations to our audience comprised of preschoolers to school-age children.

Enclosed you will find the Event Questionnaire you asked us to complete. Feel free to use us as a reference for other public libraries seeking to book your amazing program.

Thank you for such a fun afternoon!

Sincerely yours,

*Margaret Ann Castrigno*
