Mad Science of Long Island

P.O. Box 401
Woodmere, NY 11598-0410

Dear Mad Scientist,

I would just love to thank you for the great party. My son Brandon and his friends had a fantastic time and they were elevated to a new height when shauna entertained them. I really believe that the PARENTS enjoyed it more. Some parent wished that had brought a notebook and others were just so happy it was not a run around party. I believe education is the most important element in life and I learned some new things.

Shuana was just great. She kept the interest of the children and they were focused. Shuana was surprised at the attention span of the children. They all go to Carousel day school and they really love to learn. Even my 2 year had a great time..... He was really involved in the class.
