

My party was for twins and one with special needs. Half the party guests were all also special needs and the instructor, Melissa, did a wonderful job presenting all material with the utmost patience. All of the children sat and were engaged the entire time, which for most of the children (including my son) is a daily challenge! It was wonderful to see both my son's having a good time together.

I got very good feedback from all the parents at the party too! They were all thrilled that their children were sitting and were engaged.

Thank you for making our party a hit and for treating our children with patience & respect they deserve!
