

This was my son's 2nd mad science
holiday party with William. The kids
loved the show and all the cool
special effects. William is funny,
enthusiastic, and knowledgeable.
My son was excited throughout
the mad about blue show, periscope
making and rocket launching.
My son could not have had a
better party. All the kids
were very interested and excited.
I wouldn't be surprised if he
wanted mad science next year too.
Thank you!
