

Claudio's science presentation brought enthusiastic
screams & laughter throughout the performance.
His patience and humor with 5 year olds
truly impressed the parents as well as his
wonderful connection to the children. I
was asked by many of the parents where could
they find him again, which doesn't happen too
often (I'd imagine) at birthday parties. Alex
had a great time - he loved the cotton
candy demonstration as well as the
air blowing the ball presentation, and
of course the blue goo. Thank you for
making my son's 5th birthday party
memorable & fun!
