

3/24/06

Dear Mad Science Team,

Thank you so much for coming to Lockhart School today & sharing your knowledge of rocks & minerals with our 5th graders. They really enjoyed the show. The speaker, Shawna, was very knowledgeable about the subject matter & she was able to keep the childrens attention. The props were good. The students particularly enjoyed making pink volcanoes erupt. I would recommend this show to other schools without hesitation.

Thank you once again,

Johann Meese
