Dear Scott,

Just a quick note of appreciation to you and your team of mad scientists. We at Grant M. Bowler Elementary School were incredibly pleased with the hands-on science centers that were provided for the students. We had an entire year to focus on science and engage the students in various activities. They were excited and enthusiastic following our kick-off beginning with Mad Science.

Again, we thank you for providing such a rewarding experience in the field of science for our students. Being a rural community, we do not often get to experience some of the excitement provided for those students who reside within the city limits. We look forward to another engaging experience with the Mad Science team in the future.

Sincerely,

Donna L. Swanson
