

Summer Science Experience

SUMMER CAMPS full of fun for ages 5 -12

New! **Anatomy of a Crime Scene**

Come explore the in's and out's of your body in this awesome introduction to anatomy! Learn the ABC's of DNA to break the gene code. Discover how forensic scientists study a crime scene and use anatomy to solve a crime. Take a trip on the "organ trail", discover the "city" in your cells, dust for fingerprints, meet Mr. Bones, and so much more!

New! **Our Planet Earth**

Investigate the powerful processes that shape our planet and form beautiful crystals and minerals! Make a rockin' rock board and crack open a geode. Explore the environment, make recycled paper, and build your own mini ecosystem. Learn how to harness the power of the sun and avoid getting burned. Discover the sound a raccoon makes and learn to eat like a woodpecker.

Mad Scientist's Laboratory

Come inside and see what spectacular solutions the Mad Scientist has been whipping up! Experiment with some crazy chemistry, learn about exothermic reactions and create crystals. Have a cool time with dry ice, make an oozing batch of gooey slime, and see what pops up in our explosions lab.

NASA: Journey into Outer Space!

Mad Science and NASA have teamed up to bring you the excitement and wonder of space in the NASA Academy of Future Space Explorers! Developed in cooperation with NASA, this program takes children on a voyage of discovery where they will explore space phenomena, unlock the mystery of meteors, search for alien life, and discover the stars! Join the Space shuttle tech crew and become a rocket scientist! (recommended for ages 6 -12)

SUMMER CAMP full of fun for ages 3½ - 5

Little Scientists Preschool Lab

Experience fun, touchy-feely experiments in this week-long lab. Meet Mr. Bones, dig for dinosaurs, explore rainbows of light, and play with the power of magnets. Take a journey through taste buds and smell, become an astronaut in training, play with ooey-gooey polymers, and much more!

(preschool experience required)
