Mad Science is the world's leading fun science provider and we are running a truly different summer experience this year!

We are running 30 hours of programming at three different venues this summer between 3rd and 21st August. Choose a standalone session or hang out with us all week! The choice is yours. However spaces are limited so book as early as you can!

Sessions at each location run from 9am - 12pm, we then break for something to eat (please bring a packed lunch if you are staying all day!) and then the fun kicks off again from 12:30 - 3:30pm

This year we have a brand new programme to offer you. Each day has a different theme so it does not matter if you are staying for a one off session or all week, you will still get hands on with some great and exciting experiments!

- Monday: **Science of Sport** - Eggbert needs help in The Egg toss Challenge! Can he make the flight without cracking up!?! Explore the science behind how we move in this Egg citing Session!
- Tuesday: **Radical Reactions** - Make your very own invisible ink and discover the radical world of wonderful reactions in this fast paced session, that's sure to go with a bang or two!
- Wednesday: **Machine Mania** - create your very own working catapult and Use simple machines to complete different tasks like lifting weights and launching marshmallows! The session ends with the Mad Science Machine Assault course!
- Thursday : **Space Day** - what does toilet paper and our solar system have in common? Find out in this "out of this world" session where we launch bottle rockets and explore all aspects of space!
- Friday: **Scene of the Crime** - The week ends with campers coming face to face with a "real" crime scene! By gathering evidence and then using a variety of forensic methods campers will try and unravel the mystery and discover whodunit!

Children will receive at least one super cool mad science take-home with each session. For more details on the activities that will be run please visit [www.madscience.org/worcs](http://www.madscience.org/worcs)

- Prices:**
- Half day (am or pm): £18**
- Full day (9am-3:30pm): £ 32**
