One-stop Shopping

2007 marks the 21st year of your Huntsville Place Mall providing all the shopping needs of the Huntsville area. As the only indoor mall in Muskoka, and with such anchor stores as Zellers, Scotiabank and A&P your Huntsville Place Mall provides year-round shopping comfort with plenty of level parking.

Over the years your Huntsville Place Mall has become more than just a shopping experience for the community of Huntsville. It has become a social centre as well and friends meet daily for coffee; sport and recreation groups organize their registrations and of course there are the ongoing community fundraising efforts that take place at your Huntsville Place Mall. For the past couple of years your Huntsville Place Mall has played a key role in the creation of the King William Group business district. In a very short period of time there have been many accomplishments including the placement of hanging flower baskets, flower barrels, Muskoka chairs for the weary walker and this year, recycling containers to help keep our street clean.

All of us on King William are looking forward to the planned streetscape renewal of King William that will take place this fall. Next spring there will definitely be a 'wow factor' as King William is connected to our beautiful downtown.

Schedule of Events

Grand reopening in August

On Aug. 11, after a year of many changes, including the passing of company founder Pete Singer in December, Efficient Wood and Gas/Pete's Heat will be welcoming customers into their newly-renovated showrooms with a grand re-opening.

The event will include a Big Green Egg barbecue tasting, as well as promotions and draws throughout the day.

"We want to thank the public that's been supportive of us, as well as let people know we're still here and going strong," said operations manager Sonja Miller.

Efficient Wood and Gas/Pete's Heat have been serving the Muskoka/Parry Sound community for 29 years, and have been at their 45 King William St. location since the early 1980s.

They are a source for stoves, fireplaces, furnaces, air conditioning ductwork, kitchen ranges and smokers, and can handle all your service questions and installation needs.

And while it's not always easy to look to the colder season in the throws of summer's glorious heat, planning ahead is always a good idea when it comes to an efficient way to heat your home.

Whether looking for a new unit, or an insert to help make the century-old fireplace in your home an efficient way to heat your dwelling, the selection at Efficient Wood and Gas/Pete's Heat is sure to please.

With over 70 years collective experience, the friendly staff at Efficient Wood and Gas/Pete's Heat is there to help you make the best heating decision for your home or cottage.

The store carries a variety of products that deal in wood, natural gas and propane, and with names like Regency, Pacific Energy, Enviro, Jotul, and Valor, customers are sure to find the product they're looking for.

"We have fireplaces, inserts and freestanding units," says Miller. "We have pretty much all fireplace accessories and we do service calls on units that we have installed."

Staff members at Pete's Heat are licensed to work with natural gas and propane, as well as being W.E.T.T. certified technicians.

Following the grand re-opening in August, the staff at Efficient Wood and Gas will begin plans for the company's 30th anniversary celebration next year, said Miller.

Drop by Efficient Wood and Gas/Pete's Heat at 45 King William Street, across from McDonald's. They are open Tuesday to Friday 9 a.m. to 5:30 p.m. and on Saturdays from 9 a.m. to 5 p.m. Please inquire about Mondays. Presently Mondays 9 a.m. to 3 p.m.

You can also check out their website at www.petesheat.com, or give them a call at 789-8313.
