

We bring **FUN** science to you!

Entertaining Educational Captivating

Give your child the Best Birthday Party ever, an unforgettable experience. Invite the Mad Scientist to your party. He comes with a kit of fun interactive science experiments to captivate your group at your location. As well as the Mad Scientist's demonstrations all party children get to participate in a fun activity making their own Mad Science product. Parties are approximately 45 minutes long, perfect for children 5 to 12, age sensitive kits, tons of fun, and satisfaction guaranteed. The Mad Scientist only asks for a table or surface to lay out the experiments and in some cases the ability to darken the room to better appreciate the visual effects. There is no mess. The birthday child will also get a big poster! All prices are subject to HST.
