Mr. Scott Rosen
Mad Science of Las Vegas
3006 Rigel Avenue
Las Vegas, NV 89102

Dear Mr. Rosen,

It was a great pleasure for me to work with Dianna Paul, Exploration Program Coordinator, to kick off our science week activities. Dianna and her mad scientists did an amazing job of inspiring our students to further their understanding of science concepts.

It was very helpful for our teachers to have the overview of the activities and the explanations of science principles behind the experiments your staff provided. The hands on science booths and centers imparted safe, meaningful, and exciting science activities for our students.

Thank you for customizing your program to meet our needs at Marc Kahre Elementary. As you know, this was our second year to have the Mad Science Exploration Program at Kahre. We are looking forward with excitement to having your return next year.

We sincerely appreciate your support and willingness to work with us. The assistance of citizens like you and companies like Mad Science has enabled our school district to accomplish far more than it otherwise could have. It is through community partnerships such as this that provide a supportive environment for our children.

It has been said that there are three kinds of people in the world: those who make things happen, those who watch things happen, and those who wonder what happened. You are clearly one of those in the first category, and I sincerely appreciate all you have contributed to our school.

Sincerely,

A handwritten signature in cursive script that reads 'Jan Reese'. The signature is written in dark ink and is positioned above the printed name.

Jan Reese, Office Manager
