To Whom It May Concern:

February 5, 2007

I am pleased to write this letter in support of the Mad Science EXPLORATION program. We were fortunate enough to have the crew of Mad Scientists here the week of January 22, 2007. This fine organization conducted a school-wide assembly on Monday, they conducted small group science experiments with each classroom Tuesday and Wednesday, and then they were here to work with our families on Thursday of the same week.

The staff did an amazing job of inspiring our young students to further their understanding of science concepts. The staff worked hard and enthusiastically with my students, staff, and parents throughout the week.

At Richard C. Priest Elementary School we have worked hard to get children excited about science. This fine organization really helped us meet that goal.

With the help of our PTA we made an investment in our kids' science education that will last a life time.

I cannot express enough how grateful I am that we were lucky to enough to have the Mad Scientists at our school. Bravo to an outstanding educational program.

Sincerely,

A handwritten signature in cursive script, which appears to read "Linda M. Griffith".

Linda M. Griffith, Ed.D.
