Come to your school assembly, corporate picnic, holiday party, Scouting Blue and Gold dinner, summer camp kickoff, end of year party, family science night, swim club meet, parents' night out, ... or anywhere you have large groups of children to entertain!

These thrilling, fast-paced, high energy 45 min interactive science presentations enjoyed by children and adults alike!

Less than 100 kids \$285

More than 100 kids \$375

**There is \$50 travel fee for Marin and San Francisco Counties

Choose from:

Fire and Ice

The event includes foggy dry ice storms. Volunteers from the audience can taste a special Mad Science "burp" potion. Students will be amazed by sizzling, shivering scissors and special bubbly showers.

Up, Up and Away!

This spellbinding special event introduces children to the principles of air and pressure. The Mad Scientist will make a hot air balloon. A vortex generator to create giant smoke rings. The children will get to see an incredible exothermic reaction take place.

Crazy Chemistry

The audience will be amazed when the Mad Scientist uses an array of chemicals to make color changes and melt a head. They will watch as the Mad Scientist creates an extra hand, to help with some of the more complicated experiments, including making a science genie come out of his bottle.
