

Mad Science

Preschool Workshops

Adventures in Air

Wrestle with the strength of air and experiment with invisible forces that have incredible power! Fly and take home your very own foam flyer.

Dinosaurs

Dig in and become a paleontologist! We'll investigate the differences between meat-eating and plant-eating dinosaurs. Make your own T-Rex tooth!

Water Works

Learn why water is so important and see how it affects the world around us. Make your very own water density wand!

Sea, Sand and Surf

Explore the science of the sea and the fascinating creatures that live there. Learn how shells are used for protection. Make your very own "ocean-in-a-bottle."

Space Frontiers

Take an exciting mission with Mad Science and explore the planets, moons and stars. Learn about astronauts and take home a foam rocket launcher.

Magnetic Attraction

Investigate the invisible power of magnets. Discover why opposites attract. Make and take home your own "magnetic solar system"!

Weather Wonders

Learn how heat, water and wind affect the weather. See nature's awesome forces in action and take home a "wind sock"!

World of Worms

Use magnifying glasses to investigate the world of worms. Find out what they eat for lunch and discover why we see them when it rains.
