Sparkling Imaginative Learning

Fun and Educational Science for Children

Mad Science Adopt-a-School Program

Local Businesses “Give the Gift of Science” to Support the Development of Inquisitive Young Minds

What is it?

Mad Science of South Central Alaska is proud to announce an exciting new collaborative program which will allow local area businesses to sponsor exciting educational science programming for local community schools. The Adopt-A-School program provides a mechanism for local businesses to support their community by providing elementary schools with a tax-deductible gift of much needed enrichment programs in science. Providing a robust and exciting science program is a difficult task for most schools, particularly at the elementary school level. The cost of sophisticated equipment and supplies alone is often prohibitive. The Adopt-A-School program is designed to help schools continue to spark the imagination and curiosity of our children about the world around them

Programming that will be available to schools through the Adopt-A-School program include in-class science workshops that provide students with exciting hands-on science activities, after-school science programs, Exploration Days, Science Nights and spectacular auditorium presentations for the whole school. Over 5 million children in the US, Canada, and overseas have already experienced fun and educational Mad Science enrichment programs.

How does it Work?

Local public elementary schools are all eligible to participate in the program. Businesses choose a school to “adopt” and choose the programming options and level of support they wish to provide. In-class workshops are 90 minutes in duration while after-school science enrichment programs are five (5) one-hour classes over 5 weeks.

What are the Adoption level choices?

Future Scientists Sponsor: \$600

- Option 1: Four (4) in-class hands-on workshops
- Option 2: Two (2) Science Spectacular auditorium shows for the whole school
- Option 3: Assist or sponsor five (5) economically disadvantaged children to attend Mad Science after-school enrichment program.
- Option 4: Half-day Exploration Program for Entire School. Includes 3 Booths (2 take-homes, 1 Demo) for 3 hours.

We're "Mad" About Science

Adoption level choices continued...

Future Scientists Benefactor: \$1,200

- Option 1: Eight (8) in-class hands-on workshops
- Option 2: Four (4) in-class hands-on workshops and two Science Spectacular auditorium shows for the whole school
- Option 3: Assist or sponsor twelve (12) economically disadvantaged children to attend Mad Science after-school enrichment program.
- Option 4: Half-day Exploration Program for entire school. Includes 6 booths (3 take-homes, 3 demos) for 3 hours
OR
- Full day Exploration Program for entire school. Includes 3 booths (2 take-homes, 1 demo) for 6 hours.

Future Scientists Patron: \$2,000

- Option 1: Thirteen (13) in-class hands-on workshops
- Option 2: Sponsor twenty (20) economically disadvantaged children to attend Mad Science after-school science enrichment program.
- Option 3: Full day Exploration Program for entire school. Includes 6 booths (3 take-homes, 3 demos) for 6 hours.

Future Scientists Executive: \$4,500

- Option 1: In-class hands-on workshops for each classroom at the school; up to thirty (30)
- Option 2: Sponsor forty-five (45) economically disadvantaged children to attend Mad Science after-school science enrichment program. This is 2 full classes for a 5-week course!

How Can a Business Participate?

1. Contact Mad Science or the school you would like to adopt with the level and option you wish to sponsor.
2. Most businesses will send their Adopt-a-School donations directly to Mad Science. In some instances you may receive a check from the sponsoring company to cover the costs of bringing the Mad Science Adopt-a-School program to your school. In this case, please let us know if businesses should make out checks directly to your school, the school district, or, if appropriate, your school foundation. If none of these is workable please let us know and we will arrange for alternate options. In any case, you will need to make sure that a check is generated to Mad Science of South Central Alaska in the amount of the donation. All funds received through the Adopt-A-School program ***must*** be used to pay for bringing Mad Science enrichment programs to the adopted school.
3. Mad Science will let the school know as soon as an “adoption” has been made and with what programs were chosen for sponsorship if not contacted directly.
4. Mad Science will keep you posted on the progress of scheduling the sponsored programs.
5. The students will experience fun and educational hands-on science with your business mentioned as the sponsor!
6. You will receive a certificate from Mad Science commemorating you as a community sponsor of our kids!

***Fill out the attached form to start your
school adoption today!***
