

Attention Teachers!

Enhance your science curriculum with hands-on, in-class workshops for K-6!

Mad Science® Workshops...

- ... take place in your classroom!
- ... are approximately 1 hour long!
- ... meet national science standards and benchmarks!
- ... are led by experienced instructors, using professional lesson plans, materials and equipment!
- ... use hands-on activities to reinforce science concepts and methodologies!
- ... are available for all grade/age levels!

SATISFACTION GUARANTEED!

We also offer exciting...
After-School Programs, Special Events, Assemblies,
Vacation and Summer Programs, Birthday Parties and Preschool Programs!

We are a proud member of

**AAAS
&
NSTA**

Sparking Imaginative Learning

Mad Science® Workshop Topics & Descriptions

Workshops for Grades K-2

Life Science Workshops

- **Seeking our Senses** - Sniff out the science of your five senses.
- **Decomposers** - Learn the vital role worms play in the food chain. (K only)

Earth Science Workshops

- **Dinosaurs** - Join a dinosaur excavation and make your own T-Rex tooth.
- **Dirt on Garbage** - Explore the concepts of *reduce, reuse, recycle*.

Physical Science Workshops

- **Slippery Science** - Explore the properties of polymers and make a batch of slime.
- **Sonic Sounds** - Surf sonic sound waves in this "off-beat" program.
- **Where's the Air** - Learn about the air all around and Bernoulli's Principle.
- **Mischievous Magnets** - Explore magnetic fields and the properties of magnets.

Workshops for Grades 3-6

Life Science Workshops

- **Ecosystem Explorations** - Investigate food webs and the natural cycles.
- **Photosynthesis** - Discover how plants are, "little factories" and how they help us breathe.
- **Cells** - Explore the components of cells and build your own model cell.

Earth Science Workshops

- **Black & Blue Oceans** - Investigate an oil spill and focus on the impact of water pollution.
- **Mineral Mania** - Peek beneath Earth's crust and learn about all rocks and minerals.
- **Dirt on Garbage** - Explore the concepts of *reduce, reuse, recycle*.

Physical Science Workshops

- **Electricity** - Excite some electrons and create some serious circuits.
- **Matter of Fact** - Investigate the building blocks of everything & learn the 3 states of matter.
- **Mischievous Magnets** - Explore magnetic fields and the properties of magnets.

CALL TODAY TO BOOK YOUR WORKSHOPS!

Now thru Aug 17, 2010 \$153.00 (10% off the normal \$170.00) up to 25 kids
