

TURN YOUR CHILD'S

BIRTHDAY PARTY

INTO AN UNFORGETTABLE EXPERIENCE!

Your child will participate in totally cool science experiments with a certified Mad Scientist! The children will discover the spectacular side of science as they have fun with physics and witness cool chemical reactions! Party guests will concoct super-stretchy Mad Science putty, ooey gooey slime, or a high-bouncing polymer ball!

We have a laboratory full of interactive demonstrations and activities to perform at your child's next birthday!

"I wish the Mad Scientist was here everyday."
Melvin, age 7, San Francisco
